Dr Eileen Mcgrath:

Restoring the Balance Ellen S. More, 2001-03-16 From about 1850 American women physicians won gradual acceptance from male colleagues and the general public primarily as caregivers to women and children By 1920 they represented approximately five percent of the profession But within a decade their niche in American medicine women s medical schools and medical societies dispensaries for women and children women s hospitals and settlement house clinics had declined The steady increase of women entering medical schools also halted a trend not reversed until the 1960s Yet as women s traditional niche in the profession disappeared a vanguard of women doctors slowly opened new paths to professional advancement and public health advocacy Drawing on rich archival sources and her own extensive interviews with women physicians Ellen More shows how the Victorian ideal of balance influenced the practice of healing for women doctors in America over the past 150 years She argues that the history of women practitioners throughout the twentieth century fulfills the expectations constructed within the Victorian culture of professionalism Restoring the Balance demonstrates that women doctors collectively and individually sought to balance the distinctive interests and culture of women against the claims of disinterestedness scientific objectivity and specialization of modern medical professionalism That goal More writes reaffirmed by each generation lies at the heart of her central question what does it mean to be a woman physician

Contraceptive Risk William Green, 2017-05-02 The story of Depo Provera joins the national struggle over the drug s FDA approval to the state legal issues raised by its contraceptive and criminal justice uses Depo Provera is known as an injectable hormonal birth control method but few are familiar with its dark and complicated history Depo Provera was tested on women since the mid 1960s without their informed consent until it was FDA approved in 1992 but never FDA approved as chemical castration for male sex offenders Contraceptive Risk is William Green s landmark study of Depo Provera Based on a fascinating combination of archival materials and interviews the book is framed as three interconnected stories told by Judith Weisz who chaired the FDA s Public Board of Inquiry on Depo Provera a scientific court by Anne MacMurdo who brought a products liability suit against Upjohn the drug s manufacturer for the deleterious side effects she suffered from the drug s use and by Roger Gauntlett an Upjohn heir who when he was convicted of sexual assault refused to take a dose of his family s own medicine as a probation condition Together these three stories of Depo Provera s convoluted fifty year odyssey call for a paradigm shift in pharmaceutical drug development Contraceptive Risk is a thoroughly researched and engrossing approach to the scientific political and institutional forces involved in health law and policy as well as the multifaceted politics of measuring risk

Julia never suspected that a trip to their grandparents home in Oxford would contain anything out of the ordinary But that was before Julia stumbled upon a mysterious garden that shone on moonless nights It was no accident that she fell into the pool pulling her brother along with her but now they re lost in a strange new world and they don t know whom they can trust Should they believe the mysterious hooded lords The ancient monk who appears only when least expected Or the silent slaves who have a dark secret of their own In a world inhabited by strange beasts and magical whisperings two children called from another world will have to discover who they truly are fighting desperate battles within themselves before they can lead the great revolution

Bentonville Nathaniel Cheairs Hughes Jr.,2000-11-09 The battle of Bentonville the only major Civil War battle fought in North Carolina was the Confederacy s last attempt to stop the devastating march of William Tecumseh Sherman s army north through the Carolinas Despite their numerical disadvantage General Joseph E Johnston s Confederate forces successfully ambushed one wing of Sherman s army on March 19 1865 but were soon repulsed For the Confederates it was a heroic but futile effort to delay the inevitable within a month both Richmond and Raleigh had fallen and Lee had surrendered

Medicine, Charity and Mutual Aid Dr Anne Borsay,Dr Peter Shapely,2013-06-28 The history of the voluntary sector in British towns and cities has received increasing scholarly attention in recent years Nevertheless whilst there have been a number of valuable contributions looking at issues such as charity as a key welfare provider charity and medicine and charity and power in the community there has been no book length exploration of the role and position of

the recipient By focusing on the recipients of charity rather than the donors or institutions this volume tackles searching questions of social control and cohesion and the relationship between providers and recipients in a new and revealing manner It is shown how these issues changed over the course of the nineteenth century as the frontier between the state and the voluntary sector shifted away from charity towards greater reliance on public finance workers contributions and mutual aid In turn these new sources of assistance enriched civil society encouraging democratization empowerment and social inclusion for previously marginalized members of the community The book opens with an introduction that locates medicine charity and mutual aid within their broad historiographical and urban contexts Twelve archive based inter related chapters follow Their main chronological focus is the nineteenth and early twentieth centuries which witnessed such momentous changes in the attitudes to and allocation of charity and poor relief However individual chapters on the early modern period the eighteenth century and the aftermath of the Second World War provide illuminating context and help ensure that the volume provides a systematic overview of the subject that will be of interest to social urban and medical historians
